CYBER AND PRIVACY INSURANCE COVERAGE

Law firms have a professional and legal obligation to protect the personal information of clients and individuals. With the rise in computer hacking, identity theft, and other unauthorized access to confidential information, your firm could be exposed to defense and liability expenses, as well as notification and credit monitoring costs that can easily run in the hundreds of thousands of dollars.

Protect yourself with a comprehensive Privacy Insurance policy. Let TSIB show you how a well-constructed policy can save your firm from these costly and unplanned expenses.

PROFESSIONAL LIABILITY INSURANCE

Any firm can be subjected to a Legal Malpractice/(E&O) suit no matter how good or professional you feel your firm conducts its business. Legal Malpractice provides coverage against claims or mistakes, such as negligence, misrepresentation, violation of good faith and fair dealing, and inaccurate advice, which cause financial harm to another person or company. It covers both the obligation to pay damages for covered claims as well as the cost to defend against such claims. A well-constructed Legal Malpractice Professional policy is vital to your firm's risk management plan.
